

# GABION BASKETS

**Ground, Wind, Weed  
& Erosion Control**

A rectangular or cylindrical cage made of wire mesh or welded wire mesh.

Fill baskets with stone or other materials for erosion control, slope stabilisation, retaining walls and flood protection. The wire mesh structure provides flexibility, allowing them to conform to the terrain and withstand water flow or pressure. The stones or your chosen materials inside provide stability and prevent soil erosion.

**Specification: Table 1 - Clipped. Table 2 - Helical**

| Basket Size  | Gauge     | Pallet Quantity |
|--------------|-----------|-----------------|
| 39 x 18 x 18 | 10g (3mm) | 200             |
|              | 8g (4mm)  | 100             |
| 39 x 39 x 18 | 10g (3mm) | 125             |
|              | 8g (4mm)  | 75              |
| 39 x 39 x 39 | 10g (3mm) | 125             |
|              | 8g (4mm)  | 75              |
| 60 x 18 x 18 | 10g (3mm) | 200             |
| 60 x 39 x 39 | 10g (3mm) | 100             |
|              | 8g (4mm)  | 50              |
| 78 x 18 x 18 | 10g (3mm) | 200             |
|              | 8g (4mm)  | 100             |
| 78 x 39 x 18 | 10g (3mm) | 125             |
|              | 8g (4mm)  | 75              |
| 78 x 39 x 39 | 10g (3mm) | 125             |
|              | 8g (4mm)  | 75              |

| Basket Size  | Gauge     | Pallet Quantity |
|--------------|-----------|-----------------|
| 39 x 18 x 18 | 10g (3mm) | 100             |
|              | 8g (4mm)  | 50              |
| 39 x 39 x 18 | 10g (3mm) | 50              |
|              | 8g (4mm)  | 25              |
| 39 x 39 x 39 | 10g (3mm) | 50              |
