Plant • Protect • Enhance • Improve

Urban Tree Planting & Tree Irrigation

A British Manufactured laser cut tree grille for a range of urban tree planting projects as a protection solution.

Laser cut tree grilles offer protection to the trees roots in an urban environment where pedestrians and light traffic will be in contact and close promixity to the trees every day.

Specification

Material: Laser Cut Tree Grilles manufactured in Stainless Steel (grades 304 & 316), Mild Steel or Corten Steel
Finish: Stainless Steel finished brush polished. Other polish finishes or mill finished also available. Mild Steel Grilles are finished galvanised and can be powder coated in any RALS/BS colour if required. Corten Steel Grilles are left bare metal to passivate to a rust coloured finish.

Dimensions

Available in sizes from Ø 800mm to Ø 2500mm. Other sizes, rectangular and hexagonal laser cut grilles are also available.

Design Options

Laser cut grilles can have design alterations, or be manufactured to a completely bespoke design if required.

Further Options

Laser cut grilles can be manufactured to accept irrigation units, tree guards and uplighters.
