

# SEDUM MATTING PITCHED ROOF

An easy to install and maintain green roofing solution without waiting for seeds or plug plants to develop.

Sedum matting contains plant species that support pollinating insects, it features a mixture of mature plants that allows dense plants to establish quickly - making it more reliable than seeding and less time-consuming than plug planting.

Contains frost hardy perennial species which are environmentally-friendly, drought tolerant, low maintenance and prefers neutral to slightly alkaline pH soils.

## Applications

- Sloped roofs with a pitch between 3° - 20°. 10°+ require irrigation/regular watering
- Requires a smooth non-corrugated surface
- Ground installation on sloped solid surfaces
